Focus on these audits first

These audits likely have the largest impact on your page performance.

Structure audits do not directly affect your Performance Score, but improving the audits seen here can help as a starting point for overall performance gains.

How does this affect me?

Modern web users have a short attention span and expect a fast and seamless website experience. Delivering that fast experience can result in more traffic, more conversions, and more happiness.

As if you didn't need more incentive, [Google use Page Speed and Page Experience \(including Web Vitals\) signals in their ranking algorithm](#).

About GTmetrix

GTmetrix

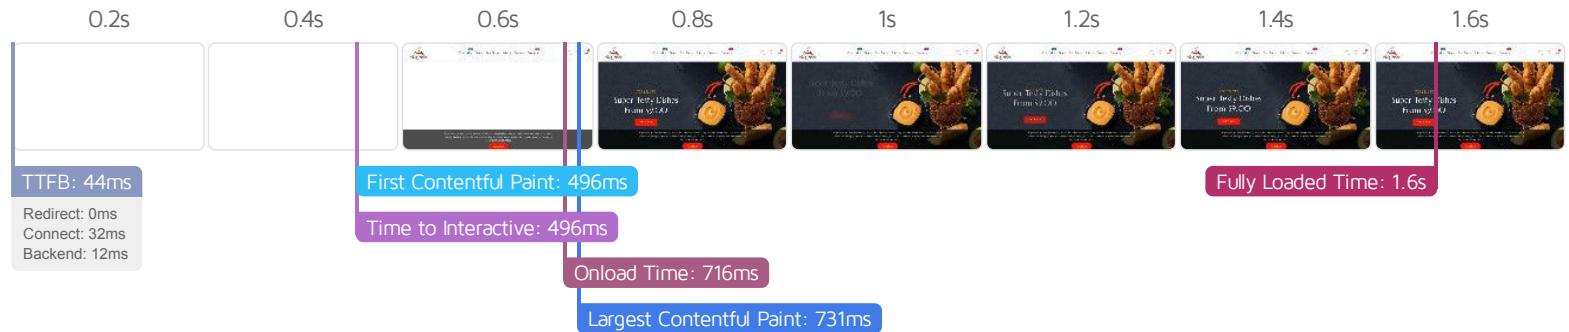

GTmetrix was developed as a tool for customers to easily test the performance of their webpages.
